10 I am not sure what exemption if any the Government after the commission is over is going to recommend, for the Government recommendation they decided one way or other. The Govt should have enough information about the ordinary working of Govt aided schools to say whether they are efficient ones or not

11 I think the DPI should be required to send a detailed report at once regarding the condition of the Islamic Indigenous schools but I think they are very badly managed. There are no proper teachers. The Sanskrit schools seem to be no exception. The system of all these schools should be carefully considered
